## SENIOR ENGINEER

A vacancy exists for a Transportation Engineer to commence duties in the Bloemfontein office, in the Transport Sector as soon as possible. (A wide spectrum of clients in the Central Area has expressed the desire that SSI should consider appointment of a candidate to this senior management position who qualifies as an employment equity candidate. SSI will choose the best candidate for the job).

### Main responsibilities

- Development and management of the Bloemfontein Transport Business Unit
- Business development and client liaison
- Mentoring and capacity building of staff in the Bloemfontein Transport Business Unit
- Project management of Transport projects
- Road planning, design and tender documentation
- Stay abreast of the latest developments in the Transport field
- Adherence to quality procedures

### Minimum qualifications, skills and experience

- BSc or BEng Civil Engineering Degree
- Professional Registration with ECSA is essential
- Minimum of 7-10 years experience in the Transportation field, specifically in the planning, design and supervision of National, Provincial and Municipal roads
- Proven track record in managing projects and / or a transport business unit
- Tender preparation and contract administration experience would be advantageous

### Behavioural competencies

- Leadership and management skills
- Good communication skills
- Able to work well under pressure
- Ability to market services to clients
- Ability to work independently as well as within a team

Written applications supported by a CV should be submitted to:

**Amanda McDonald**
